Software Developer | .NET | REST APIs | Angular | React | SQL | AI Integration

Professional Summary

Computer Science and Engineering graduate with a **9.4 CGPA** and hands-on experience as a **Junior Software Developer at SCASYS**. Currently contributing to enterprise software development involving **.NET backend development, REST APIs, SQL, API testing, Angular, React, AI integration, and procurement application workflows**. Worked on backend modules for an AI project and the Procqur enterprise product while gaining exposure to SCASYS ERP and Epicor ERP concepts. Strong foundation in software engineering, problem solving, backend development, and artificial intelligence with continuous learning in Machine Learning, Cloud, and advanced SQL.

Technical Skills

Programming Languages: C#, Python, JavaScript, SQL, C, Java (Basics)

Backend Development: .NET, ASP.NET Core, REST APIs, Web API, API Integration, Backend Development

Frontend Development: Angular, React.js, HTML5, CSS3, JavaScript

Databases: Microsoft SQL Server, MySQL, MongoDB, SQL Queries, Database Fundamentals

Artificial Intelligence: Generative AI, AI Integration, Prompt Engineering, NLP, Machine Learning Fundamentals.

Tools: Git, GitHub, Postman, Swagger/OpenAPI, Visual Studio, VS Code, SQL Server Management Studio

Currently Learning: Advanced SQL, Machine Learning, Cloud Computing, Enterprise Architecture

Professional Experience

SCASYS — Infopark, Koratty, Kerala
Junior Software Developer — *2026 – Present*

- Working as a Junior Software Developer on enterprise software applications using .NET technologies.
- Developed and worked on backend APIs for internal business applications and enterprise workflows.
- Contributed to backend development for an AI project, working with API-based application functionality and AI integration.
- Worked on the ProQur enterprise product by developing backend APIs, validating functionality, and performing API testing.
- Participated in debugging backend services, identifying API issues, testing endpoints, and supporting application quality.
- Worked with SQL databases and backend data operations while understanding enterprise application data flow.
- Gained practical exposure to SCASYS ERP and learned the fundamentals of Epicor ERP business workflows and enterprise systems.
- Collaborated with development team members using Git-based source control and software development practices.

Infosys Springboard — Remote
AI Developer Intern — *Sep 2025 – Dec 2025*

- Developed AI chatbot applications using Python and Streamlit.
- Worked with APIs and local Large Language Models for conversational AI applications.
- Implemented prompt-based AI workflows and experimented with LLM application development.

ICT Academy of Kerala — Kerala
Full Stack MERN Intern — *Jun 2025*

- Developed frontend and backend web application modules using MongoDB, Express.js, React.js, and Node.js.
- Built REST API-based communication between frontend and backend applications.

Pacelab — Kerala
Python & AI Intern — *Jan 2024*

- Worked with Python, NumPy, and Pandas for data preprocessing and machine learning preparation.
- Performed structured data cleaning and analysis for AI-related datasets.

Selected Projects

ResolveHub – Enterprise Ticket Management System
.NET | Angular | SQL Server | REST APIs

- Designed and developed a full-stack enterprise ticket management application using .NET, Angular, SQL Server, and REST APIs.
- Implemented Department, Category, SubCategory, User Management, Authentication, Ticket Management, and SLA Management modules.
- Developed backend APIs and integrated them with Angular frontend components.
- Designed relational database structures including tables, relationships, SQL queries, and business workflow logic.
- Implemented search, filtering, pagination, validation, notifications, modals, and responsive enterprise UI components.

CodeGenie AI Chatbot
Python | Streamlit | Ollama | LLM | OCR

- Developed an AI-powered coding assistant using Python and Streamlit.
- Integrated Ollama-based local LLMs for contextual programming assistance.
- Implemented OCR-based document understanding for context-aware AI responses.

Expertease AI – Smart Health Assistant
Python | Django | NLP

- Developed backend modules for a healthcare assistance platform.
- Built NLP-based chatbot functionality and automated user notification features.
- Worked with Django backend services and AI-based conversational workflows.

Book Genre Classification Engine
Python | NLP | Scikit-learn

- Developed a machine learning model for book genre prediction using Natural Language Processing techniques.
- Performed text preprocessing, feature extraction, model training, and evaluation using Scikit-learn.

Education

Vidya Academy of Science and Technology — Thrissur, Kerala
B.Tech Computer Science and Engineering — *2022 – 2026*

- **CGPA: 9.4 / 10**
- Completed Minor and Honours programs alongside the core B.Tech curriculum.

St. Joseph Higher Secondary School — Pavaratty, Thrissur
Higher Secondary Education – Science — *2020 – 2022*

Christ King Convent School — Pavaratty, Thrissur
Secondary School Leaving Certificate — *2020*

Certifications

- **Machine Learning & AI Foundations** – Infosys Springboard
- **Essential Mathematics for Machine Learning** – NPTEL
- **SQL Programming Fundamentals** – Oracle Academy
- **Python & Django Framework** – Govt. Rutronix
- **Java, Python & LaTeX Training** – IIT Bombay Spoken Tutorial
- **Technical Architecture Job Simulation** – Deloitte Forage

Leadership & Achievements

- **NSS Unit Coordinator:** Led volunteer coordination and community development activities.
- **MPOWER Vice Captain:** Supported mentorship and student professional development initiatives.
- **IEDC & Technical Events:** Active member of innovation, entrepreneurship, and college technical event management teams.
- **Arabic Literary Awards:** Multiple first-place recognitions in Arabic Extempore Speech, Essay Writing, and Poetry competitions.
